

A Legislative Platform for an Equitable Cannabis Industry

Pot Profits for Pennsylvanians (P3) is a coalition of advocacy groups and individuals working for an equitable cannabis industry in Pennsylvania. Our mission is to advocate for state legislation that stops multi-state corporations from controlling the cannabis market in Pennsylvania and ensures ownership opportunities for small local farms and businesses in both rural and urban communities. **Through this legislation, we will**

bring economic opportunity to Pennsylvanians, avoid the industry consolidation that Pennsylvania experienced with its medical marijuana industry, and prevent this new market from being monopolized by a handful of large out-of-state companies

No Legalization Without Localization!

The goal of this legislation is to *advance* Adult Use Cannabis legalization in a manner that *increases* racial and economic justice by *establishing* an industry that is *accessible* to small farmers, **Black and Brown entrepreneurs and small local businesses**. The law aims to create a new legal framework that provides economic opportunity in our region, prevents economic concentration, and reinvests revenue generated by the AUC industry back into the communities most harmed by cannabis prohibition. It will reduce the criminalization of marijuana related offenses, as well as expunge and restrict the collateral consequences associated with prior marijuana convictions.
